Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 20 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Less murky in the south but greyer further north.

Today:
Less murky in the south compared to late but greyer for northern areas with increased amounts of cloud. Staying dry throughout with some occasional brighter spells possible through the afternoon. Maximum temperature 7 deg C (45 deg F).

Tonight:
Cloud breaking up through the evening and overnight. Turning cold under these clear intervals with a widespread frost and isolated fog patches developing. Minimum temperature -2 deg C (28 deg F).

Tuesday:
After a chilly start, a notably brighter day for many on Tuesday with sunny intervals developing. Staying dry but feeling rather cold. Maximum temperature 5 deg C (41 deg F).

Outlook for Wednesday to Friday:
Another widely frosty start to Wednesday with a few fog patches. Sunny spells and feeling rather cold during the day. Turning more unsettled into Thursday and Friday.
